Chapter 1

The Game

1.1 What is the Mighty Map Crawler?

This is a cooperative dungeon crawling game for 1 to 6 players, which can be played by everyone without the need for a game master or expensive equipment.
All you need is a printer, a dry-erase-map (or a piece of paper), and time! The character progress is consistent across a campaign.

Every player starts by creating a character according to the rules on page XXX.
After that, a scenario is selected, which consists of a short introductory text, a scenario goal and a *dungeon map*(see section 1.3).
